

STAS DOYER

Créateur de bien-être depuis 1963

ORL HYDROTHERAPY

www.stas-doyer.com

CREATOR OF WELL-BEING SINCE 1963

EXPERT IN DESIGN AND INNOVATION

As pioneers in the manufacture of hydrotherapy equipment since 1963, we have acquired a real know-how that has led us to and maintained us at the heart of this profession.

Our research and development are focused on the design, production and development of equipment that we are constantly improving, with an ever more innovative range.

WATERPROOF AND WEATHERPROOF RELIABILITY

All the materials used in the manufacture of our products are carefully selected to meet the requirements of hydrotherapy :

- Intensive use
- Expertise in thermalism / thalassotherapy
- Aggressive waters: salty, sulfurous, chlorinated...

HYDROTHERAPY MADE IN FRANCE

All parts are machined in-house, in our French factory near Toulouse.

Our teams combine craftsmanship and precision tools. We control our entire production chain, from mold design to quality testing.

SUPPORTING YOU FOR 60 YEARS

We support our customers from the choice of equipment right through to maintenance. Our 60 years' experience means we can guarantee that our products will stand the test of time.

STAS DOYER products can be found on all five continents. Thanks to our network of local partners, we can guarantee a close relationship.

“SALINA MULTI”

5-CARE MODULAR STATION

5 CARES

STAS DOYER has developed a multi-care workstation dedicated to ENT pathologies (rhinitis, sinusitis, laryngitis, otitis, pharyngitis, bronchitis, etc.).

It can be used for the following treatments: Nasal irrigation, Moisturizing, Spraying, Aerosol, Sonic, Steam spraying.

This innovation is a real asset for the station and for patients: no need to move patients, real space savings and comfort during treatment.

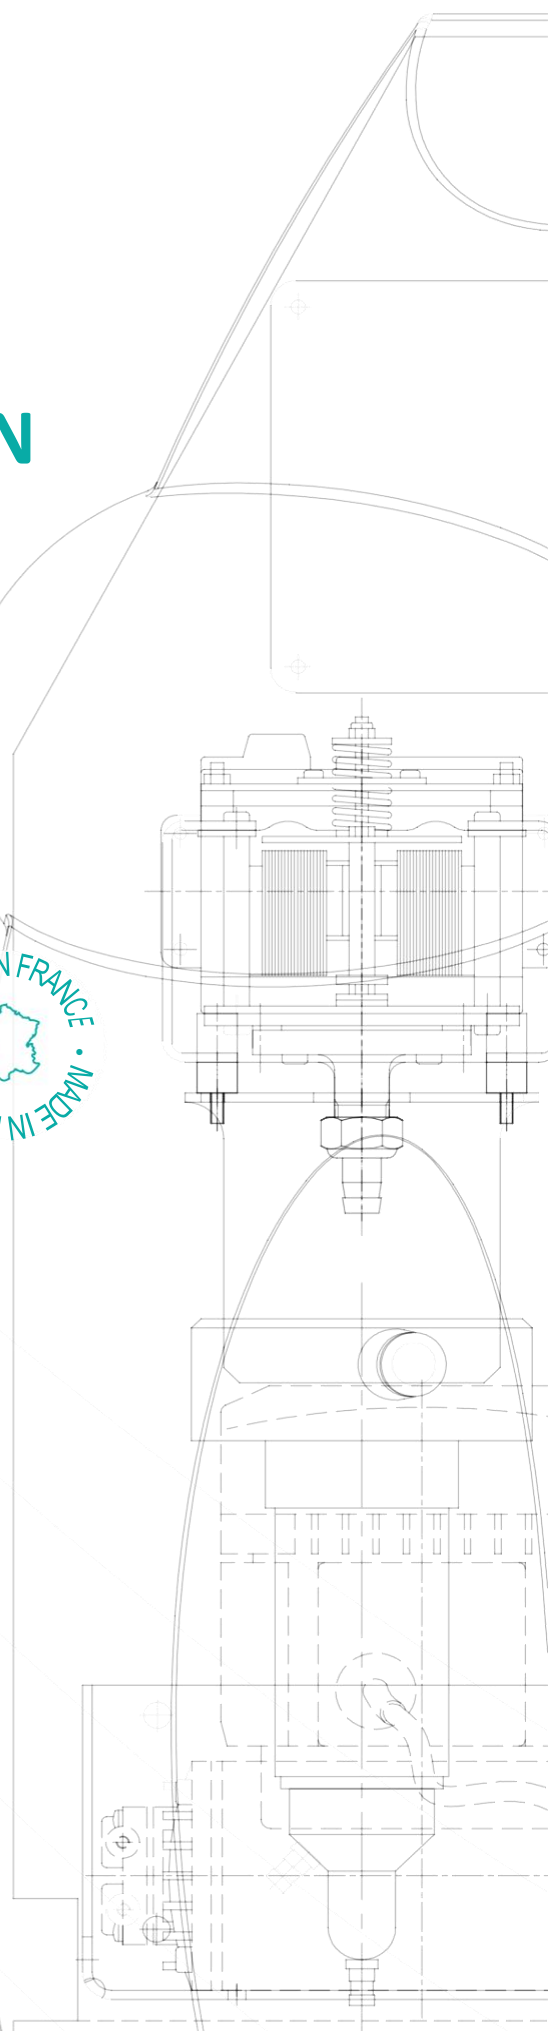

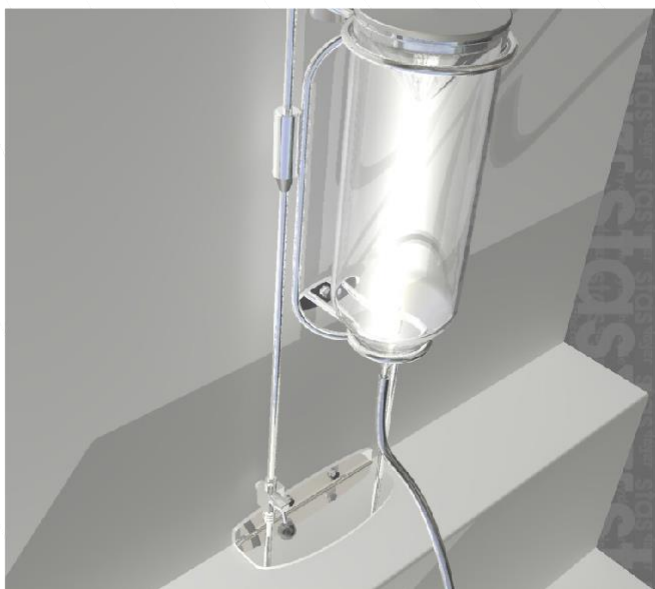

2 MODULES TO INTEGRATE US INTO YOUR SYSTEM

SALINA MULTI, our complete “ready-to-install” module, includes a complete cabinet, washbasin, spacious technical pedestal and privacy screens...

SALINA ADAPT, our optimized technical module, enables you to add our care equipment to your existing furniture.

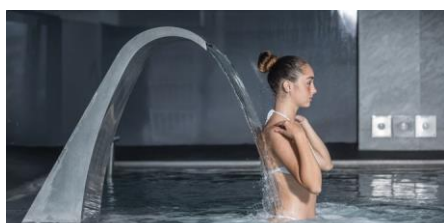

THE DESIGN

At STAS DOYER, we believe that aesthetics should go hand in hand with technical sophistication. Our designers conceive creations that conceal technical parts with welcoming, ergonomic fronts for greater well-being...

Thermal Estate of Aix-Marlioz -

THE FORERUNNER OF HYDROTHERAPY

With a presence in 20 countries and more than 2,000 references among institutes, SPAs, spas, thalassotherapy centers and hotels, Stas Doyer has been a true expert in hydrotherapy since 1963.
